Hello Mr. Albright

Thank you for your response and the letter copy. It is informative.

I am currently in a civil trial. Can you call me at 1:15 PM Monday or anytime after 4:45 PM Monday?

Thank you again for your response.

Sincerely,

Dwayne Roach

Hello Mr. Roach,

I apologize for the delay in responding to your inquiry. I am out of the office today, but will be back in on Monday and can give you a call then. Please let me know if there is a particular time that would be better for you to talk on Monday or another day next week.

In addition, I am attaching a letter that EPA sent to the DOGGR and the State Water Board this week, addressing some of the ongoing issues with Class II injection in the State. I hope you find this information useful.

Regards,

David

Hello Mr. Albright

We sent you a letter on February 19, 2015 regarding wells drilled illegally on our property in Kern County California. I have called your office many times and left two messages informing you I would call again. (It is difficult to get through to your office on the public number we have.) We are concerned the Operator and DOGGR are seeking exemption for these illegal wells. We are not aware of any special provisions in the laws that allow large companies to permit illegal wells while at the same time small companies wells are being ordered shut-in, though they were legally permitted.

I would like to speak with you about the issue. Will you please call me at your convenience? Office 661-377-1000. Mobile 661-616-8330. We are taking legal action in federal court in the coming week so time is of the essence. Thank you.

Sincerely,

Dwayne Roach
